During an emergency, always CALL 911 first!
HAZARDOUS MATERIALS  
If life-threatening, pull the fire alarm, evacuate, and CALL 911  
If non-life-threatening, call 911 and provide information on type of incident and location  
If you come into contact with a hazardous material, decontaminate and CALL 911  
Get as much information as possible from the caller regarding location of device, what it looks like, what will cause it to explode  
Note background sounds, gender of caller, and any notable characteristics of the caller’s voice  
CALL 911

BOMB THREAT  
Evacuate the building and leave the area  
Call 911  
Take cover under a table or desk if you can’t evacuate  
Assist the injured

EXPLOSION  
Seek shelter under a desk, table, or under a doorway frame and hold on  
Stay away from windows, shelves, and heavy equipment  
Evacuate the building if an alarm sounds or if told to do so by emergency personnel  
Move away from building, utility poles, overhead wires, and other structures. Avoid downed power or utility lines, as they may be energized  
Do not call 911 unless you require immediate emergency assistance.

EARTHQUAKE  
If an individual:  
appears to be a danger to themselves or others  
threatens suicide  
threatens to hurt others  
or displays irrational behavior  
and/or the situation appears violent or life-threatening Call 911
