“I am currently employed in a local middle school as a resource teacher, but I had been looking for a way to extend my teaching repertoire and knowledge of students with exceptionalities. After looking into several schools around Indiana, I decided to attend Purdue Fort Wayne. I chose Purdue Fort Wayne because it gave me the opportunity to attain my license in Mild Intervention while working towards my Masters in Special Education.”

Tegan Krouse

“As a general education teacher, I was looking for classes to increase my knowledge in working with students with learning exceptionalities. I enjoyed the professors and classes at Purdue Fort Wayne so much that I decided to work towards my special education license. I truly appreciate the small class size which lends itself to discussion-based classes. The professors are knowledgeable, insightful and approachable. The special education classes equipped me to meet the needs of the various learners I see every day.”
