Part 1: Elementary Assessment (ACEI SPA Standards)

School of Education Elementary Student Teaching FINAL Evaluation

As part of understanding what knowledge, skills, and dispositions our students possess, we are asking you to complete an end-of-clinical evaluation. This tool is comprised of three different parts. The first part is based on the Association for Childhood Education International (ACEI) standards for beginning teachers. The second part contains knowledge and skills as outlined by InTASC and CAEP, our accreditating body. The last part asks to you to consider the dispositions that are valued by the faculty at Purdue University Fort Wayne. In other words, these dispositions align with our Conceptual Framework. You will also be asked to provide a narrative summary of the Student Teacher's performance. Thank you in advance for the time you put into this evaluation -- it is very important to us and the Student Teacher.

Person filling out the survey. I am the	
Ocooperating Teacher	
University Supervisor	
Number of students:	

Purdue University Fort Wayne is piloting a 5-level student teaching evaluation system. We believe this will provide more flexibility in scoring and more

nuanced information to inform decisions.

For each of the following items in Part 1 (only):

- Use the DEVELOPING category if the candidate demonstrates performance described in both Acceptable and Unacceptable levels of performance.
- Use the ADVANCED category if the candidate demonstrates performance described in both Target and Acceptable levels of performance.

ACEI 1.0 - Development, Learning, and Motivation

TARGET ADVANCED ACCEPTABLE DEVELOPING UNACCEPTABLE Drew on prior Drew on prior knowledge of knowledge to plan Did not or is only each child to plan curricular beginning to curricular experience(s) that demonstrate an were achievable experience(s) that ability to plan challenged and and meaningful curriculum that is for children. achievable and extended development and Select children challenging for learning. were challenged children at various **Experiences** to master developmental understanding of motivated each levels. child, regardless and make of developmental

and make
meaningful
connections to the
content.

connections to the content.

ACEI 1.0 - Development, Learning, and Motivation

TARGET ADVANCED ACCEPTABLE DEVELOPING UNACCEPTABLE Used Did not actively developmental. Used knowledge teach missing of child family, and social or development emotional cultural and/or family knowledge to regulation skills. proactively culture to model Intervened in create/support a and support negative student safe, positive, appropriate, behaviors but positive behaviors encouraging and relied primarily on in students. rewards or nurturing environment. Use **Explicitly taught** punishments to that context to social or stop behavior. emotional integrate varied opportunities for regulation skills. teaching and Intervened in practicing social negative student and emotional behaviors. regulation skills. Supports positive behaviors

through the use of intrinsic motivation techniques without relying on rewards or punishments; intervenes in negative student behaviors (e.g., name-calling, exclusion).

Comments for ACEI Standard 1:

In this section, you *MUST* evaluate performance in <u>each</u> of the content areas below. Consider when you have obseved the area being taught independently or when one or more were integrated into a single curricular experience.

ACEI 2.0 - Curriculum<

2.1 English Language Arts/ Reading

ADVANCED

DEVELOPING

TARGET

ACCEPTABLE

UNACCEPTABLE

Implemented strategies based on scientifically-based reading research with fidelity during lesson.

Built on students' prior understandings of the five essential components of reading (e.g., phonemic awareness, fluency).

Balanced the mechanical conventions and the meaning-based qualities of language.

Created space in environment for learners to:

- engage with and converse around high quality literature.
 - engage in

Implemented strategies based on scientifically-based reading strategies inconsistently during lesson.

Built on some students' prior understandings of the five essential components of reading.

Favored one aspect more than another (e.g., mechanical conventions vs meaning-based qualities), but not to the detriment of the other.

Created space in environment for learners to:

- engage with and converse around high quality literature.
- use high quality

Unclear if or how scientifically-based reading research impacted selection or implementation of teaching strategies.

Taught according to curriculum guide, ignoring the ically-based researcearch researc areas that you observed the candidate teaching or intergrating into thstudents' prior understandings of the five essential components of reading.

Favored one aspect to the detriment of the other such that children's learning suffered.

inquiry using high quality texts including access to electronic sources.

 produce texts (e.g., skits, music compositions, journals, electronic texts) that reflect and support their learning and expand their expressive abilities.

Promotes a critical stance toward the analysis and interpretation of texts that encourages multiple perspectives.

texts including access to electronic sources to answer simple questions posed by teacher and/or children.

 produce texts that communicate what they have learned.

Invites children to investigate an issue/tell a story from a perspective different from that of the author of the text.

Created space in environment for learners to:

- engage in question/answer sessions with teacher about literature.
 - read texts.
- produce reports over what read.

Reads text from the perspective of the author.

2.2 Science

TARGET

ADVANCED

ACCEPTABLE

DEVELOPING UNACCEPTABLE

Used open-ended inquiry processes

Used inquiry processes (e.g., Used direct instruction

for children to investigate their own questions related to scientific concepts or principles.

Children were supported in considering the personal and social applications of their results.

structured or guided investigations) for children to investigate important scientific concepts or principles.

Focused lesson on assisting children with building understanding of personal and social applications in science.

techniques to tell children about scientific concepts or principles. Children spent majority of time listening and/or completing worksheet(s).

Children were not supported in considering the personal and/or social applications of science.

2.3 Mathematics

TARGET ADVANCED ACCEPTABLE DEVELOPING UNACCEPTABLE

Demonstrated mathematical fluency by having a number of ways to present and engage students in thinking about math concepts.

Balanced and linked conceptual

Demonstrated mathematical fluency by having a number of ways to present math concepts to students.

Favored one aspect more than another (e.g.,

Used one method to present or think about mathematical concepts. Relied on that strategy to the exclusion of others that would benefit some students.

understanding and computational proficiency.

Facilitated students' focus on and use of problem solving strategies for mathematical learning. Assisted students in monitoring and reflecting on the process of mathematical problem solving.

Supported students' investigations of mathematical conjectures, student proofs, and the selection and use of various types of reasoning and proof.

Provide an environment, that needs minimal teacher prompting, in which students

conceptual
understanding vs
computational
proficiency), but
not to the
detriment of the
other.

Posed problems for children to solve that link to their life experiences.
Taught children self-monitoring techniques for problem-solving process.

Created space in learning environment for students to:

- organize and communicate mathematical thinking in writing.
- talk in pairs, small groups, or as a large group about answers to problems with the goal of highlighting reasoning and

Favored computational proficiency to the detriment of children's conceptual learning.

Viewed
mathematical
learning as skilland-drill, not as
interesting
problems to solve.

Created space in learning environment for students to:

- communicate answers to others with the goal of coming to consensus.
- uses calculators in a way that that focuses just on the answers and not a deeper understanding.

C

automatically are able to:

use

mathematical language to organize and communicate mathematical thinking orally and in writing.

- make connections within mathematics and to real-life contexts.
- use appropriate technological tools, such as calculator, spreadsheets, geometry and/or presentation software.

proof.

- make connections within mathematics.
- use math or technology tools appropriately to build understanding.

2.4 Social Studies

TARGET ADVANCED ACCEPTABLE DEVELOPING UNACCEPTABLE Used knowledge Focused on Used knowledge of social studies of social studies isolated facts. to provide to help students May have students provided learn concepts misinformation to integrated from one

learning experience from more than one of the academic fields of social studies.

Engaged students in research using a variety of sources. analyzing different points of view, and applying their thinking (individually and collaboratively) to real world situations.

Encouraged the acquisition of knowledge, skills and dispositions necessary to be informed, caring and responsible citizens.

academic field within social studies.

Encouraged students to build knowledge through researching specific sources, examining data, and formulating oral and/or written arguments.

or supported misconceptions of students.

Encouraged students to memorize information provided rather than engage in inquiry.

2.5 The Arts

TARGET

ADVANCED

ACCEPTABLE

DEVELOPING UNACCEPTABLE

Worked alone or with visual arts/ music specialists to integrate art/music with other content areas in learning experiences.

Used visual arts/music as the primary media for students to communicate what they learned in other disciplines.

Provided
exemplary works
of arts from a
variety of cultural
and historical
periods to make
connections
between the arts
and other
disciplines.

Encouraged students in study of, participation in, and appreciation of traditional and technology-based Planned visual art or music learning experience that integrated concepts within that one discipline.

Supported students' use of traditional tools for communication in visual arts/ music.

Acquainted students with exemplary arts from a variety of cultures and historical periods.

Encouraged students in study of, participation in, and appreciation of traditional tools associated with visual arts/music.

Visual art or music experience focused on one concept in isolation.

Supported students in using paper-pencil methods for communicating what they learned, rather than using visual arts/music as a communication tool.

Introduce a variety of art forms representing an array of quality.

Encouraged students to participate in using traditional tools associated with visual arts/music.

tools associated with visual arts/music.

2.6 Health Education

TARGET

Used inquiry to foster students' understanding of the benefits of a healthy lifestyle, as well as the dangers of diseases and activities that may contribute to disease.

Addressed healthrelated issues in ways that helped children recognize potentially dangerous situations, clarify misconceptions, and find reliable sources of information.

ADVANCED

ACCEPTABLE

Used structured or guided investigations to teach students the major health issues affecting children and imparted information on these issues sensitively.

Provided problems to solve to clarify misconceptions for children and helped them recognize potentially dangerous situations.

Relied on direct instruction for sharing information on the major health issues affecting children. May have imparted misinformation or reacted insensitively to student concerns.

UNACCEPTABLE

Encouraged students to memorize information provided rather than engage in inquiry.

2.7 Physical Education

TARGET

Created
experiences to
help children
understand the
intrinsic value and
benefits
associated with
physical activity.

Responded to signs of students' need for physical movement with meaningful movement experience.

ADVANCED

ACCEPTABLE

Communicated
using a variety of
methods the
intrinsic value and
benefits
associated with
physical activity.

Demonstrated understanding that physical inactivity is a major health risk factor by providing regular opportunities for physical movement (beyond PE class or recess).

UNACCEPTABLE

Used direct instruction to tell children the benefits of physical activity.

Children remained inactive during most of the learning experience.

development.

Worked in isolation in an attempt to solve problems, rather than collaborating with others.

Comments for ACEI Standard 5:

** You have completed Part 1. Please verify your responses before hitting the button below to continue to Parts 2 and 3.**

Part 2 - Unit-wide Assessment (CAEP/InTASC Stnds)

Learners & Learning

The candidate regularly assesses development and learning of each student and uses that information to scaffold to next levels.

InTASC #1

CAEP 1.1

Target

Candidate regularly assesses learning (e.g., performance, abilities, and skills) of individuals and the group. Data are used to design responsive curriculum and instruction to scaffold the next level of learning.

Acceptable

Candidate assesses, albeit inconsistently, learning (e.g., performance, abilities, and skills) of individuals and the group. Data are used to and instruction to meet learners' needs.

Unacceptable

Candidate infrequently assesses learning for individuals and group. design responsive curriculum Curriculum and instruction are selected without reference to learning characteristics.

Content Knowledge

Candidate uses technology effectively to achieve content-specific learning goals.

InTASC #5

CAEP 1.5

Target

Candidate engages and involves students with different technologies to achieve specific learning goals in the content area(s). The technology tools or apps are used in such a way that

Acceptable

Candidate engages students in technologies that are connected to the specific learning goals for the content area(s).

Unacceptable

Candidate emphasizes technologies that have limited utility for enriching learning in the content area(s).

students deepen their understanding of the content.

Content Knowledge

Candidate engages students in making meaning of the content by examining it through diverse perspectives and personal responses.

InTASC #4

CAEP 1.1

Target

Candidate engages students in discovering meaning of the content by questioning and analyzing ideas from diverse perspectives in content texts, materials, performances, and/or labs. Students are challenged to connect their personal responses to other larger meanings and critical stances in the content area.

Acceptable

Candidate engages students in making meaning of content the students' ability to engage texts, materials, performances, or labs by providing diverse materials and opportunities for emphasize students' personal personal response.

Unacceptable

Candidate provides content text, materials, performances, and/or labs from limited perspectives, thus restricting in making meaning. Or, candidates might overresponses to the content.

Instructional Practice

Candidate uses both formative and summative assessment to document learning.

InTASC #6

CAEP 1.1

Acceptable Unacceptable **Target**

Candidate balances the use of Candidate uses both formative Candidate relies significantly formative and summative assessments, as appropriate, to support, verify, and document learning.

and summative assessments to document learning.

on one assessment method over the other. Data are used to demonstrate what students do not know or are unable to do.

Instructional Practice

The candidate selects learning experiences that reflect curriculum goals and content standards while being relevant to learners.

InTASC #7

CAEP 1.1

Target

Candidate creates learning experiences that are meaningful to learners due to and prior knowledge. The experiences also align to curriculum and content standards

Acceptable

Candidate selects learning experiences based on students' contextual variables students' prior knowledge. The experiences also reflect curriculum and content standards, yet sometimes not for learners or for addressing directly.

Unacceptable

Candidate follows curriculum guides or sequence with minimal consideration to how meaningful experiences are content standards.

Instructional Practice

Candidate uses technology to ensure accessibility and relevance for all learners.

InTASC #8

CAEP 1.1

Target

Technology enhances the teaching and learning process in a way that is not achievable without it. Also, it is ageappropriate, matching ability levels, interests, and needs.

Acceptable

Technology selected is ageappropriate, matching ability levels, interests, and needs.

Unacceptable

Technology selected is appropriate for a subset of students.

Professional Responsibility

The candidate uses a variety of self-assessment strategies to analyze and reflect on his/her practice.

InTASC #9 CAEP 3.6

Target

Candidate creates a plan for reflecting on practices during and after instruction. The data gathered via the strategies are analyzed and used to make a variety of adaptations/ adjustments (e.g., organizational, instructional, materials, etc.) that benefit the students.

.0.

Acceptable

Candidate creates a plan for reflecting on practice after instruction occurs. The data gathered via the strategies are analyzed and used to make improvements to future instructional plans.

Unacceptable

Candidate reflects on practice in an unplanned, unsystematic way or only when prompted by someone to do so.

Experiences are reflected on in a holistic manner without reference to specific data. In addition, the candidate may lack links between changes made and data collected.

Professional Responsibility

The candidate understands laws related to learners' rights and teacher responsibilities.

InTASC #9

CAEP 3.6

Target

Candidate understands and appropriately applies confidentiality, requirements for reporting child abuse and neglect and discrimination/ harassment/bullying.

Acceptable

Candidate demonstrates a firm educational laws, especially understanding of educational laws, confidentiality, requirements especially confidentiality, requirements for reporting child abuse and neglect and discrimination/harassment/bullying.

Unacceptable

Candidate demonstrates misunderstandings or gaps in knowledge concerning educational laws, especially for reporting child abuse and neglect and/or discrimination/ harassment/bullying.

Professional Responsibility

The candidate demonstrates professional ethics and respect for others in the use of technology (e.g., learning management system, social media).

InTASC #9

CAEP 1.5

Target

Candidate explicitly teaches and supports students' application of digital citizenship characteristics.When necessary, family members

Acceptable

Candidate follows characteristics of digital citizenship when developing lesson plans that incorporate technology. Reminders or prompts for students are outlined. When necessary,

Unacceptable

Candidate does not acknowledge, support, or follow components of digital citizenship for self or students. Family members are not notified in advance of

are notified in advance of classroom activities.

family members are notified in classroom activities when it advance of classroom activities.

was necessary.

** You have now completed Parts 1 and 2. Please verify your answers before hitting the button below to continue to Part 3.**

Part 3: Unit-wide Disposition Assessment (CAEP/InTASC Stnds)

College of Professional Studies

Disposition Assessment

Indicator 1: DEMOCRACY & COMMUNITY: Builds a community based on belief that each **child/adolescent** (c/a) can learn to high levels. InTASC #2 **CAEP 3.3**

Target

ACCEPTABLE

UNACCEPTABLE

Communicates through words Communicates through words learn to high levels. Communicates faith in values. strengths, and competencies of each c/a and family. Communicates high

learn to high levels. Communicates positive perspectives about c/a and families. Supplements prescribed curriculum with

and actions that each c/a can and actions that each c/a can and actions that some (not all) c/a can learn to high levels. Communicates negative perspectives about a c/a or families. Sets minimal expectations for c/a

expectations through design and delivery of challenging curriculum and assessments that foster high-level skills for each c/a.

enrichment experiences that reflect some c/a's lives outside information about c/a's lives of school.

performance. Seeks minimal outside of school, usually in response to a problem.

InTASC # 2

CAEP 3.3

TARGET

Culturally responsive practices are evident in delivery of instruction. Works with children/adolescents to address injustices in curriculum, society, or own lives.

ACCEPTABLE

Creates a curriculum that demonstrates valuing diverse groups through classroom materials, activities, and assignments.

UNACCEPTABLE

A single perspective dominates classroom materials, activities, and assignments.

Indicator 3: HABITS OF MIND: Relentless in belief about the importance of teachers using critical thinking, reflection, and professional development to grow as a teacher.

InTASC #9

TARGET

Independently reflects on effectiveness of teaching by

ACCEPTABLE

UNACCEPTABLE

Makes changes to practices in Overly dependent on feedback response to feedback. from others OR disregards

asking critical questions. Approaches professional inquiry perspective. Seeks out opportunities within learning environment to grow as a professional.

Participates in professional development opportunities, growth from a critical thinking, including professional learning communities, scholarly endeavors, and/or teacher research.

feedback provided. Actively avoids engaging intellectually in professional development opportunities

Indicator 4: HABITS OF MIND: Committed to designing meaningful, intellectually engaging curriculum.

InTASC #7 **CAEP 3.3**

TARGET

Makes c/a's habits of mind visible through inquiries or investigations (critiquing, questioning, analyzing, evaluating). Ties together multiple concepts so that similarities and differences are problems. Judiciously utilizes understood by c/a.

ACCEPTABLE

Creates a context that is supportive in developing c/a's habits of mind. Encourages multiple pathways for solving worksheets or tests.

UNACCEPTABLE

Engages in behaviors that result in intellectual dependency of c/a, for example, show, tell, and demonstrate. Teaches one way to solve a problem and accepts only that method. Follows teaching manual, curriculum guides, or colleagues without evaluating potential engagement levels by c/a's.

Indicator 5: ADVOCACY:

Willingness to collaborate to help each child learn.

InTASC # 9 CAEP 3.3

TARGET

Collaborates with family members and other teachers to create innovative solutions that support each child's/ adolescent's success.

ACCEPTABLE

Coordinates actions with colleagues to meet students' learning needs.

UNACCEPTABLE

Important educational decisions are made independently without communicating with family members or colleagues.

Indicator 6: ADVOCACY: Persistent in advocating for and promoting the profession. InTASC # 10

CAEP 3.3

TARGET

Advocates for the profession by speaking or acting publically on issues facing schools, teachers, families, students, or communities.

ACCEPTABLE

Projects positive view of profession when communicating with others about children, adolescents, families, colleagues, or the profession.

UNACCEPTABLE

Initiates or adds to negativity about c/a, families, colleagues, or profession, projecting a negative view of the profession to others.

COMMENTS - FOR FINAL EVALUATION ONLY:

This is the most important part of the rating of the student teacher. This narrative summary should be reasonably detailed, complete, and accurate, including reference to specific examples of the student teacher's skills. It should address the student teacher's abilities and readiness to be a first-year teacher. The

summary should include your recommendation of the student teache	er's potential
a member of the profession. Please remember that many times can	didates are
required to include this as part of their job application packet.
