Collegiate Connection
Program Overview

Collegiate Connection at Purdue University Fort Wayne serves high school students, teachers, and schools by increasing access to college learning, supporting excellence in teaching, and strengthening high school-university connections.

Collegiate Connection Mission
The Purdue University Fort Wayne (Purdue Fort Wayne) Collegiate Connection concurrent enrollment program began operations in Spring 2005 with one pilot school, Leo Jr./Sr. High School, in Leo, Indiana. The concurrent enrollment program was started to address new policies mandated by the Indiana Commission for Higher Education regarding dual credit offerings in area high schools. When the Indiana Department of Education updated their high school diploma requirements, every high school was required to offer two dual credit courses, and Purdue Fort Wayne met that need.

The mission of Collegiate Connection is to maintain and strengthen a true collaboration between Purdue Fort Wayne and high school partners where eligible students take classes taught by approved high school teachers for high school and college credit concurrently. These courses are taken at their high school. The program focuses on three areas:

▼ Offering qualified high school students the opportunity to enroll in rigorous and transferable university courses for Purdue Fort Wayne credit.
▼ Providing participating teachers with opportunities for professional development.
▼ Conducting research and evaluation of the program to better understand its impact on students, teachers and participating high schools.

Ensuring Quality: National Accreditation
Purdue Fort Wayne’s Collegiate Connection concurrent credit program was accredited by the National Alliance of Concurrent Enrollment Partnerships (NACEP) in spring 2011. The National Alliance of Concurrent Enrollment Partnerships (NACEP) is a professional organization for high schools and colleges that fosters and supports rigorous concurrent enrollment.

A copy of the current standards is available at the NACEP web site at www.nacep.org. NACEP provides measurable national standards to evaluate the quality and rigor of concurrent enrollment programs. The standards promote the implementation of policies and practices to ensure that:

▼ Concurrent enrollment courses offered in the high school are the same as courses offered on the campus of the sponsoring college or university
▼ Students enrolled in concurrent enrollment courses are held to the same standards of achievement as students in courses offered on-campus
▼ Instructors teaching university courses through the concurrent enrollment program meet the same academic requirements for faculty and instructors teaching in the sponsoring postsecondary institution. Concurrent enrollment program instructors have been given a statewide waiver from the Higher Learning Commission to meet educational requirements.
▼ The standards encourage greater accountability for concurrent enrollment programs through required impact studies, student surveys, and course and program evaluations.
Collegiate Connection Benefits

Students:
- Provides an effective transition from high school to college.
- Students are challenged with the high quality academic standards, additional intensive workload, and increased personal responsibility for learning which are characteristic of collegiate study.
- Students earn college credits before beginning full-time study which allows students to complete internships, double majors, and/or study abroad.
- Tuition for concurrent enrollment courses is approximately sixty percent less than on-campus tuition, with State Priority Courses as low as $25 per credit hour.
- Collegiate Connection students have access to Purdue Fort Wayne email accounts, Purdue Fort Wayne Mastodon ID cards, the Helmke library, tutoring, career services; and can attend extra-curricular activities such as NCAA Division I sports, fine arts, music, and other special events at a discounted rate.

Teachers
- Provides ongoing, discipline-specific, university-based professional development and connects teachers with university and collegial resources.
- Appointed as Purdue Fort Wayne adjuncts by academic departments, teachers have many of the same privileges as university faculty, including a fee remission for ongoing professional development through course work.

Schools
- Provides college credit opportunities in the high school.
- More students can obtain an Academic Honors diploma by fulfilling their dual credit requirement.

The University
- Enables academic departments to engage in high-quality community outreach to high school teachers, students, and schools.
- Collegiate Connection provides many students their first academic contact with Purdue Fort Wayne.

Collegiate Connection Program Evaluation
The Continuing Studies office regularly conducts studies about the impact of Collegiate Connection on students, teachers, and schools. Your cooperation—and that of your students—is critical to these efforts. Collegiate Connection courses are reviewed annually, including, end-of-course assessments by students and classroom observations made by Purdue Fort Wayne academic department representatives. Every three years, the Continuing Studies office conducts an impact study of the program. Finally, the Continuing Studies office conducts a follow-up survey of students after they have completed their first year out of high school and during their senior year in college or four years later. There is no cost to schools for these evaluation reports.

Collegiate Connection Organization, Partner Roles, and Responsibilities
Collegiate Connection is housed and administered within Purdue Fort Wayne’s Division of Continuing Studies and is also part of Purdue Fort Wayne’s Department of Student Success and Transitions. Collegiate Connection partners include Purdue Fort Wayne academic departmental administrators, faculty, high school teachers, high school administrators and counselors. The following is a summary of key partners—individuals, committees, staff, and institution administration—and their major responsibilities.
High school teacher roles and responsibilities

- Develop an academically equivalent course syllabus, following Purdue Fort Wayne guidelines.
- Teach Purdue Fort Wayne course(s).
- Attend workshops/seminars.
- Recommend students for Purdue Fort Wayne admission, using Collegiate Connection guidelines.
- Assist with Purdue Fort Wayne course registration.
- Evaluate Collegiate Connection student progress and provide guidance on course continuation/withdrawal if successful completion is in jeopardy.
- Cooperate with Continuing Studies and Student Success and Transitions offices for administrative business, including attendance verification, grade submission, course evaluations, etc.
- Notify the Continuing Studies office of any changes in status, contact information, etc.
- Become familiar with and adhere to the policies and procedures included in this document.
- Notify Follett’s Bookstore on the Purdue Fort Wayne campus if students will be purchasing textbooks on campus.

High school guidance counselors:

- Counselors advise students of dual credit opportunities and course registration information.
- Distribute and collect application and financial assistance forms.
- Provide official high school transcripts to Purdue Fort Wayne.
- Attend an annual recognition/update breakfast with guidance counselors from participating schools.

School/district roles and responsibilities

- Provide release time for teachers (professional development, department orientation, campus visit days, workshops, etc.).
- Provide release time for guidance counselors and/or administrators to attend Collegiate Connection meetings.
- Provide texts, fund classroom instruction, provide instructional space, and other materials as required by Purdue Fort Wayne academic department(s).
- Allow Purdue Fort Wayne department representatives to visit classrooms annually.
- Observe mandatory class size limits where applicable (ENG 13100, COM 11400, PHYS 22000).
- Provide high school transcripts for students applying for admission to Purdue Fort Wayne.
- Recognize Collegiate Connection policy that approved courses are exclusively for Purdue Fort Wayne credit. Another postsecondary institution is not permitted to offer credit for the same course.
- High schools and/or districts sign the Collegiate Connection Articulation Agreement prior to offering a Purdue Fort Wayne course.
- Provide candidates to replace a Collegiate Connection approved teacher.

Purdue Fort Wayne academic department representative roles and responsibilities

- Academic Departments approve Purdue Fort Wayne courses delivered through Collegiate Connection.
- Assist in the selection of faculty and staff to serve as Collegiate Connection department representatives and high school site reviewer.
- Oversee and/or participate in the selection of new Collegiate Connection instructors.
- Play a critical role to ensure that University courses taught through Collegiate Connection offer the same assessment and pedagogy as the on campus section.
- Select, prepare, and support Collegiate Connection teachers, primarily through interviewing candidates, mentoring new teachers, and observing teachers teaching in their classrooms.
- Lead discipline-specific annual professional development sessions for teachers.
- Provide a new teacher orientation session after the teacher is approved, before class begins.
- Provide a session of Professional Development with focus on topics related to content, pedagogy, and course assessment.
- Consult with Collegiate Connection staff and teachers as needed about student academic misconduct.
- Advise Continuing Studies staff on issues pertinent to the Collegiate Connection program as a whole.
**Continuing Studies office roles and responsibilities**

- Manage teacher application process.
- Evaluate student outcomes, course evaluations, and program administration.
- Manage program budget.
- Participate in planning and implementation of professional development, orientation sessions, campus visits, etc.
- Orient new teachers to Purdue Fort Wayne policies and procedures by providing the Administrative Guide.
- Coordinate with Purdue Fort Wayne academic department representatives.
- Manage policy updates/revisions from Indiana Commission for Higher Education.
- Ensure the Collegiate Connection concurrent enrollment program meets the accreditation standards of NACEP; participate in NACEP professional development.

**Student Success and Transitions roles and responsibilities**

- Admit high school students to Purdue Fort Wayne.
- Collegiate Connection staff handles all matters related to students such as: student advising, Purdue Fort Wayne admission, registration, student fees, withdrawal/refunds, collection of final grades, transferability questions.
- Inform students of Purdue Fort Wayne policy, procedures, financial obligations, etc. by providing Student Handbook.
- Respond to and resolve parent, student, counselor, and other issues and/or questions.
- Collect student grades in Collegiate Connection courses and submit them to Purdue Fort Wayne Registrar.
- Participate in planning and implementation of professional development, orientation sessions, campus visits, etc.
- Maintain the student website, provide print communications, recruit students, and speak at high school admission/information sessions, parent meetings, and other events as needed.
- Ensure the Collegiate Connection concurrent enrollment program meets the accreditation standards of NACEP; participate in NACEP professional development.
High School Teacher Application Process

Applying for Purdue University Fort Wayne's Collegiate Connection concurrent enrollment program is a multi-part process, and each academic department can require specific information. Initially, teachers interested in being approved to offer Purdue Fort Wayne courses should complete the following steps. If a department requests more than is listed here, the applicant will be notified.

Complete the Collegiate Connection Program Teacher Application.

Request transcripts from any institution attended besides Purdue Fort Wayne (formerly IPFW) Purdue West Lafayette, or Indiana Bloomington. (Note: Copies can be submitted with the initial application, but if approved, the teacher must provide official transcripts to Continuing Studies).

Write a Letter of Intent that includes the semester/year you wish to offer the course (or other schedule) and the equivalent Purdue Fort Wayne course name and number. Also indicate why you wish to offer the Purdue Fort Wayne course in your school.

Provide a copy of a dual credit course syllabus, which must include text book name, author and publication year, Purdue Fort Wayne logo, and high school logo of course to be approved.

Send the completed application, transcripts, syllabus, and cover letter to the attention of Faith Roswall, Purdue Fort Wayne Division of Continuing Studies, 2101 E. Coliseum Blvd, Fort Wayne, IN 46805.

Ask your professional references to send their reference letters to Faith Roswall.

Provide a copy of your teaching license.

If the academic department is willing to pursue the application, an interview will be scheduled for you on campus with the faculty to review your syllabus and other instructional materials.

You will be contacted by Continuing Studies when the academic department makes their final decision.

Questions: contact Faith Roswall at faith.roswall@pfw.edu

Teacher Qualifications For Concurrent Credit

- Master’s Degree
- Qualified Syllabus
- Demonstrated experience of teaching advanced courses.
- Development plans are available for less than minimal requirements.
Applying to Teach a Collegiate Connection Course

The Application Process
High school teachers who wish to teach a Collegiate Connection course must submit an application and supporting documents to demonstrate they meet the criteria set forth by the Purdue Fort Wayne academic department in which they wish to teach. If accepted, teachers are appointed as adjuncts in Purdue Fort Wayne’s Division of Continuing Studies.

The Teacher Approval Process web site can be found at pfw.edu/departments/dcs/educators under “Educators”. Here you will find the Teacher Application, the Application Checklist, and Teacher Appointment Criteria. Included on the checklist are:

- Application
- Transcripts from any institution attended
- A letter of intent
- Course syllabus
- Three letters of recommendation

*All documentation must be collected before the application is submitted to the department.*

The teacher and school principal will be notified of the approval with a Letter of Congratulations. The teacher will also receive an Adjunct Status Letter, Department Agreement, and several business forms to be signed in order to be set up in the Purdue Fort Wayne system.

NOTE: Once a teacher is approved by a Purdue Fort Wayne academic department to teach a Collegiate Connection course, the teacher and/or school are restricted to work exclusively with Purdue Fort Wayne in the specific concurrent enrollment course for Purdue Fort Wayne credit.

It is possible for teachers to teach more than one Collegiate Connection course, but they must apply separately for each course and be approved by the specific academic department(s).

If a teacher leaves their current position and takes a position in a school that also allows the teacher to offer the same course, teachers will not be required to personally apply again. The teacher will need to confirm with the new school that they are allowed to teach the same course syllabus as approved by Purdue Fort Wayne. A new syllabus must be supplied to Collegiate Connection.

Application Deadlines
Although teacher applications are accepted year round, applications should be submitted for consideration as early as possible. The Continuing Studies office encourages teachers to apply 6-9 months in advance of teaching a Purdue Fort Wayne Collegiate Connection course. This lead time allows schools to be confident that they will be able to offer Purdue Fort Wayne credit for the course and include it in their student registration materials.

HLC Guidelines (From Determining Qualified Faculty and Assumed Practices)

*Masters’ in content area:* Instructors possess an academic degree relevant to what they are teaching.

*Masters’ in another area, 18 graduate credit hours in the content area:* If a faculty member holds a master’s or higher in a discipline or subfield other than that in which he or she is teaching, that faculty member must have completed a minimum of 18 graduate credit hours in the discipline or subfield in which they teach.
Teacher Qualifications
University academic departments define specific criteria for teacher appointment that are consistent with requirements of the limited term lecturer faculty on campus. Each academic department has its own criteria; however, Collegiate Connection requires, at a minimum, that all teachers have successfully completed significant course work in the field, have a master’s degree in the content area, and have a record of teaching advanced courses using current college-level pedagogy to high school students. Additional preparation may be required by reviewing the appointment criteria for specific Purdue Fort Wayne courses on the Collegiate Connection web site www.pfw.edu/departments/dcs/educators under Educators, then Teacher Approval Process.

Replacement of a Collegiate Connection Approved Teacher

Many schools have found that transitioning from one Collegiate Connection approved teacher to the next is made much easier through a year of planned mentoring. A recommended model is for the prospective teacher to shadow the veteran teacher both during class and at Purdue Fort Wayne teacher professional development sessions.

Since all teachers must apply, interview, and be accepted into the Collegiate Connection program, prospective teachers are encouraged to apply 6-12 months prior to taking over to allow time for this mentoring.

Student teachers are not permitted to teach alone in a Collegiate Connection course since they have not met the criteria for teacher selection. Before accepting a student teacher, Collegiate Connection teachers should discuss the appropriate role (if any) for the student teacher with the Purdue Fort Wayne academic department representative.

If Collegiate Connection teachers will be absent from the classroom for more than two weeks (10 school days), they notify the Continuing Studies office and academic department representative immediately. The Continuing Studies office will assist the school in dealing with the situation and help take steps to ensure that Purdue Fort Wayne credit will still be available to students. First, Continuing Studies will contact the Purdue Fort Wayne department representative. The representative will contact the school and work with the long-term substitute teacher to ensure that the approved syllabus for the University course continues to be followed and that appropriate assessment and pedagogy is employed in the teaching of the course content.

Because the University courses offered through Collegiate Connection “belong” to the University’s academic departments, it is essential that the course continues to match the rigor and content of the University course. If, after thorough consultation and careful consideration, the Purdue Fort Wayne department representative determines that the course does not maintain University quality, Collegiate Connection staff may withdraw the Purdue Fort Wayne credit from the class. Purdue Fort Wayne wishes to avoid this step but must enforce it, in order to maintain the trust of the University academic departments with which it partners.

Schools may also use retired Collegiate Connection teachers as long-term substitutes.
New Teacher

Development Plans
Purdue Fort Wayne is committed to lifelong learning and supporting highly-qualified high school teachers.

Teachers who have been determined to have less than the established credentialing criteria may be provided a development plan. The development plan may require the teacher to take additional courses. Purdue Fort Wayne will cover a portion of the tuition for these Purdue Fort Wayne courses. The academic department representative will identify courses that can help teachers fulfill the appointment criteria for approval. For example, teachers who seek to offer ENGL 13100 Elementary Composition must complete a 3-credit hour course on Teaching Composition or be able to show that they have completed this requirement.

A letter of conditional approval will be sent to the school administrator with plans relative to the teaching schedule.

Attend Course Orientation
All newly approved high school teachers are required to attend a course orientation session with their department representative. This session will include a review of the course content, pedagogy, assessment criteria, course philosophy, and revising the syllabus to match the on-campus course before they begin teaching dual credit. These sessions will be set up by the faculty and held on campus. Continuing Studies will reimburse teachers for mileage from their school for this session.

Create a Joint Purdue Fort Wayne School Syllabus
The University does not require that a specific format be used for the syllabus. Collegiate Connection courses must have a syllabus that is equivalent with the on-campus course in content and includes the Purdue Fort Wayne logo, course name and course number in addition to the high school information. Academic departments may have additional requirements for the syllabus. Purdue Fort Wayne syllabi are available from department representatives or by contacting the Continuing Studies Office at 260-481-6111. An updated Collegiate Connection syllabus must be on file in the Continuing Studies office.

Collegiate Connection Teacher Privileges

Collegiate Connection instructors enjoy the following benefits by virtue of teaching for the University:

Fee Remission for Graduate Credit
Purdue Fort Wayne provides a fee remission waiver to all Collegiate Connection adjunct instructors. Teachers must complete and submit the appropriate fee remission request form to the Continuing Studies office for approval. The tuition will be adjusted by the Bursar’s office (See Appendix for a sample).

Mastodon Card
Mastodon Cards are the official identification for Purdue Fort Wayne faculty, staff and students. The cards enable faculty access to discounts on event tickets, software, books, and more. Collegiate Connection program teachers can obtain a Mastodon Card by completing an application and providing their Purdue Fort Wayne network ID, myPurdue Fort Wayne username or Purdue Fort Wayne e-mail address as identification. Mastodon Cards are issued at the Campus Safety Office in the Walb Union building. Teachers take their valid driver’s license, state ID card, or 6 points of state approved documents (including one photo ID). School IDs do not meet this requirement. For additional information about Mastodon Cards, visit www.pfw.edu/offices/cc/general/student-id-card.html.
Discounts on Event Tickets, Books and More
Purdue Fort Wayne adjunct faculties are eligible to purchase a variety of goods and services at a discount made possible through university purchasing agreements with selected vendors.

Access to Technology Training — pfw.edu/training/index.html
The Information Technology Services department at Purdue Fort Wayne offers regular technology workshops for faculty on campus and online. Collegiate Connection teachers can attend these courses at no cost, and they can register or find out more information on the IT Services web site.

CELT
Purdue Fort Wayne’s Center for the Enhancement of Learning and Teaching (CELT) helps faculty become reflective practitioners who seek opportunities to learn from and with their students and who continually assess the effectiveness of their teaching practices in light of student learning. CELT has collected resources on teaching in higher education to use in teaching.

At the CELT website www.pfw.edu/celt you will find access to:

- Teaching Resources
- Instructional software
...and more

Access to Helmke Library Resources and Services
Walter E. Helmke Library creates a virtual environment that supports the Purdue Fort Wayne community in efforts to discover and access vital information. Helmke Library provides high-quality information resources, expert information services, and innovative instruction fully integrated with the educational goals of Purdue Fort Wayne. Employing technology wisely, the library offers responsive delivery of resources, customized research consultation, and an environment that encourages independent exploration in the pursuit of academic excellence.
Ongoing Teacher Responsibilities

Collegiate Connection teachers are approved by the Purdue Fort Wayne academic departments because they have outstanding credentials, experience teaching rigorous content, and a desire to offer more challenging coursework to their students.

Keep Purdue Fort Wayne Updated on Schedule Changes
The Collegiate Connection office will contact the school guidance director or appropriate individual to verify start and end dates and number of class periods for each course and the overall school year. Having correct information about courses is vital as the Purdue Fort Wayne withdrawal and refund deadlines and grading process are keyed to this information. Teachers should report any changes to Purdue Fort Wayne as soon as they occur.

End of Course Evaluations
Remind students to complete end of course evaluations. Students will receive a link at their Purdue Fort Wayne email address, but teachers are also responsible for providing the link to their students.

Create a Joint High School/Purdue Fort Wayne Syllabus
Collegiate Connection students are held to the same standards of achievement as those expected of students in on-campus courses. The Purdue Fort Wayne syllabus clarifies and sets course expectations and provides a roadmap to student success. It is also the document that represents the Purdue Fort Wayne course to admissions counselors and faculty from other universities who are responsible for making decisions about credit recognition.

Sample academic department syllabi are available upon request. Collegiate Connection teachers are to create a syllabus demonstrating the equivalence of the course in the high school to that of an on-campus course. Course outcomes must be listed. High school syllabi are to be approved by the Department Representative each year. Copies of the approved syllabi are submitted to the Department Representative and the Continuing Studies office. A visual example demonstrating true collaboration to students is when a syllabus displays the Purdue Fort Wayne logo and the high school logo on the header of the syllabus. The Purdue Fort Wayne logo can be copied at the Collegiate Connection website www.pfw.edu/departments/dcs/educators/approval-process.html.

Collegiate Connection Professional Development Expectations
Annual professional development is mandatory for Collegiate Connection teachers. The purpose of the annual seminar is to provide administrative updates, course-related professional development, and ongoing collegial interaction between Purdue Fort Wayne faculty and teachers in the discipline.

Teachers who are absent from three consecutive annual professional development seminars will not retain certification to offer dual credit courses. If a teacher is decertified, they must participate in new teacher orientation with the department representative before teaching dual credit courses.

This policy should not be construed to imply that Collegiate Connection instructors need only to attend an annual professional development seminar once every three years. Annual attendance is required. Purdue Fort Wayne recognizes that life events may prevent an instructor from attending occasionally. When events result in an instructor missing three consecutive annual professional developments, new teacher orientation will be required in order to continue teaching dual credit courses.
**Attendance Policy**

Schools should make every effort to allow Collegiate Connection teachers to attend mandatory professional development sessions. This includes providing a substitute teacher if the session is scheduled during a teaching assignment. Some professional development opportunities are scheduled during summer break.

Continuing Studies staff prepares and collects sign-in sheets at every required professional development. Staff provides department representatives a list of teachers and their attendance records at the end of each academic year. The dual credit instructor confers with the department representative annually and reviews the report on dual credit instructor attendance. Should a dual credit instructor fail to attend three consecutive face-to-face or on-campus seminars, Continuing Studies will notify the dual credit instructor and the academic department representative of the non-compliance. Continuing Studies will also notify the school administration. If acceptable steps are not taken to bring the dual credit teacher into compliance Continuing Studies will decertify the instructor and require the instructor to retrain before offering dual credit courses.

Alternate professional development may be acceptable if approved in advance by the department representative. Seminar or professional development paperwork with objectives and outcomes must be made available to Continuing Studies.

*NOTE: Teachers who have been accepted to teach a Purdue Fort Wayne course, but are temporarily not teaching, or have not started teaching yet, are expected to attend the Professional Development. This experience ensures that teachers stay current with trends in their field and understand any changes to the Purdue Fort Wayne course or administrative policies.*

**Collegiate Connection Student Services**

- Collegiate Connection teachers can help students by providing Purdue Fort Wayne course expectations and assist with making realistic decisions about registering. The grade earned in an Purdue Fort Wayne Collegiate Connection course will go on a student’s permanent university transcript. If a student decides to drop the Purdue Fort Wayne portion of the class, they must officially withdraw from the course during the Purdue Fort Wayne withdrawal and refund period by contacting the Collegiate Connection office 260.481.5478. **High school guidance counselors cannot withdraw students from Purdue Fort Wayne courses.**
- Registration requests are considered late if they are received after the published date sent to the school. Late registration requests will be accepted until the last week of the term in situations in which the university determines that the delay was due to an administrative error. Late registrations requested for any other reason require an appeal. All late registration appeals are reviewed on a case-by-case basis by the Collegiate Connection office.
- Teachers should help students initiate their Purdue Fort Wayne internet accounts early in the term, and remind students that all Purdue Fort Wayne communication will be sent electronically.
- Remind students that they are responsible for knowing and following Purdue Fort Wayne policies outlined in the Collegiate Connection Student Handbook. Specifically, discuss policies on plagiarism and academic dishonesty as described in the Handbook.
- Remind students to keep their course syllabus and all written work from the course. This information may be requested when they apply for post-secondary college admission.
- Notify students that they are eligible to obtain Purdue Fort Wayne student Mastodon Cards.
Monitor Class Enrollment & Submit Final Grades

- Purdue Fort Wayne follows a strict timeline with regard to course cancellation and withdrawal. Deadlines for Purdue Fort Wayne Collegiate Connection courses are relative to the high school term. Teachers and students alike should be aware of deadlines as they can impact a student’s permanent record.

- Refund and withdrawal dates can be found in the Collegiate Connection Student Handbook which is mailed to students with a copy of their schedule. Students may download a copy from the Collegiate Connection website at pfw.edu/connection (click on @yourHighSchool on left and then withdrawals and refunds). If a course is dropped through Collegiate Connection (not the high school) by the posted deadlines, students will receive a refund. After that, refunds are not possible. If the student withdraws any time during the 100% refund period, the course will not appear on the student’s transcript. If the student withdraws any time after the 100% refund period, but before the final day to withdraw from the class, the course will appear on the transcript with a W (withdrawn) shown.

- Purdue Fort Wayne sends an official class roster to teachers by regular mail after the second full week of classes. Teachers should review the list and work with the guidance office to notify the Collegiate Connection office immediately of any changes or errors on the roster.

  Note: Students must contact the Purdue Fort Wayne Collegiate Connection office (260.481.5478) if they wish to withdraw from the Purdue Fort Wayne portion of their class at any time. Failure to contact this office can result in a grade of “F” being issued on the student’s permanent college transcript. The Collegiate Connection office will assist teachers and students who need to withdraw or request an incomplete grade for medical or other reasons.

- After reviewing the final student listing, teachers should hand-enter grades clearly on the roster for each student and sign their copy. The student roster with final grades should be returned to Purdue Fort Wayne in the envelope provided within 2 business days of the end of the class.

Purdue Fort Wayne Grading Policy

Purdue Fort Wayne prefers that teachers include in their syllabus the course requirements and grading system to be used. Students are responsible for completing all required work in the course by the time the last class meets, unless they have been officially withdrawn from the course, or unless they and the teacher have agreed that a grade of Incomplete is warranted.

The following grades may be assigned:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+, A</td>
<td>Highest passing grade</td>
</tr>
<tr>
<td>A-</td>
<td>3.7 x semester hours</td>
</tr>
<tr>
<td>B+</td>
<td>3.3 x semester hours</td>
</tr>
<tr>
<td>B</td>
<td>Above average passing grade</td>
</tr>
<tr>
<td>B-</td>
<td>2.7 x semester hours</td>
</tr>
<tr>
<td>C+</td>
<td>2.3 x semester hours</td>
</tr>
<tr>
<td>C</td>
<td>Average passing grade</td>
</tr>
<tr>
<td>C-</td>
<td>1.7 x semester hours</td>
</tr>
<tr>
<td>D+</td>
<td>1.3 x semester hours</td>
</tr>
<tr>
<td>D</td>
<td>Lowest passing grade</td>
</tr>
<tr>
<td>D-</td>
<td>0.7 x semester hours</td>
</tr>
<tr>
<td>F</td>
<td>Failure in class</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete: a temporary record of passing work that was interrupted by circumstances beyond the student’s control.</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal: a record of the fact that the student officially withdrew from a course.</td>
</tr>
</tbody>
</table>
NOTE: Students may retake any Collegiate Connection course if they are not satisfied with their final grade, but they will be required to pay tuition at the current rate per credit hour. Credit will be given only once for a repeated course, and only the most recent grade earned will be incorporated in the Purdue Fort Wayne cumulative grade point average (GPA).

Facilitate End-of-Course Student Assessments
Purdue Fort Wayne requires all faculty members to ensure students evaluate the course.

Participate in Ongoing Program Evaluation
Purdue Fort Wayne’s Continuing Studies office conducts ongoing research related to the impact of concurrent enrollment participation on teachers, students, and schools. In particular, Continuing Studies surveys all students one year and four years after they have graduated from high school to learn about their success in gaining credit for their Purdue Fort Wayne credits earned through Collegiate Connection courses. Purdue Fort Wayne asks teachers to encourage students to anticipate and participate in these surveys. The Continuing Studies office also conducts program evaluations on a three-year basis by sending surveys to principals, guidance counselors, and teachers to study the impact of the program on students.

Maintain Communication with Purdue Fort Wayne
The Collegiate Connection and Continuing Studies office send official communication to teachers via school email accounts or regular mail. It is essential that teachers monitor their accounts, even during the summer and notify Continuing Studies if accounts change during summer. Critical and timely information about course management, seminars, and program updates is sent on a regular basis.
Information Regarding Students

Understand Student Eligibility and Admission
The following policies are important to keep in mind when working with students:

- Students must meet course-specific eligibility criteria to be admitted at Purdue Fort Wayne and register for the Collegiate Connection course.
- Class-size limits in some Collegiate Connection courses are set by Purdue Fort Wayne departments and must be respected. School administrators should be aware of these limits and enforce them.
- Students who earn a grade of D+ or lower in an Purdue Fort Wayne concurrent enrollment course will not be eligible for enrollment in another concurrent enrollment course for one enrollment term. An enrollment term may be one year or one semester, depending on the school’s scheduling pattern. The student could retake the same course to earn a better grade.

Follow Purdue Fort Wayne’s Plagiarism and Academic Misconduct Policy
Teachers must present the Purdue Fort Wayne Academic Misconduct Policy during the first week of class. This policy defines dishonesty as follows:

“Academic honesty is expected of all students. You are responsible for knowing how to maintain academic honesty and for abstaining from cheating, the appearance of cheating, and permitting or assisting in another’s cheating. Your instructor is responsible for fostering the intellectual honesty as well as the intellectual development of students, and for applying methods of teaching, examination, and assignments that discourage student dishonesty. The full conduct code is available at: https://www.pfw.edu/committees/senate/code

Process for Reporting Dishonesty
Collegiate Connection teachers should report all cases of suspected academic dishonesty to the Collegiate Connection staff. Teachers who suspect a student of academic misconduct may, in consultation with the Purdue Fort Wayne department representative and the Collegiate Connection staff, settle the case directly with the student within 10 days of discovering the alleged cheating. Teachers should inform the student of charges and evidence and allow the student to make a defense. The teacher, in consultation with the Purdue Fort Wayne representative, can make an initial determination after this conference. Students may be assigned a grade of Incomplete (I) if the matter cannot be fully resolved before course grades are due.

The Collegiate Connection Student Handbook
Students are mailed a copy with their registration schedule. Students may download an additional copy of the Student Handbook at pfw.edu/connection. During the first week of class, teachers should encourage students to review the handbook and make sure they understand and are aware of college expectations.

Provide Student Advising
Collegiate Connection teachers and guidance counselors provide invaluable advising to students. While the Collegiate Connection office is the advising unit on campus for all Collegiate Connection students, teachers provide valuable advice to students as well.

When students are considering enrolling in dual credit courses

- Teachers should help students make informed decisions as they consider enrolling in an Purdue Fort Wayne course.
- Encourage them to consider questions such as:
  - Will the Purdue Fort Wayne course workload fit with my other classes?
  - What other commitments do I have during the term—work, sports, fine arts, time with friends, etc.? Can I meet time requirements of the Purdue Fort Wayne course projects?
  - What is the impact of enrolling in one or more advanced courses when considering my other commitments?
When students are doing poorly in the Purdue Fort Wayne collegiate connection class

- All Collegiate Connection grades are recorded on the students permanent transcripts; teachers should let students know if they are in jeopardy of failing an Purdue Fort Wayne concurrent enrollment course.
- Discuss appropriate options, such as taking advantage of tutoring, or withdrawing from the Purdue Fort Wayne course, and advise the student to contact the Collegiate Connection office for further action.

*Note: Students who receive a term GPA of 1.3 (D+) or lower will be placed on academic probation at Purdue Fort Wayne. Probation can lead to academic suspension which bars a student from registering at Purdue Fort Wayne for one year. It may also adversely impact their federal financial aid.*

Student Internet Accounts

Purdue Fort Wayne students are assigned an electronic account (username and password) to complete tasks related to their university responsibilities. This account grants access to log into campus computers, access and pay bills for tuition, e-mail updates, review personal information, print schedules, access Helmke Library’s extensive databases, etc. Every student admitted to take credit courses at Purdue Fort Wayne has a computer account generated for them as soon as they are admitted. Student accounts are only valid while the student is taking classes.

Student accounts must be activated before use by following the simple “First-Time User” process linked at the goPFW portal ([https://my.pfw.edu/cp/home/displaylogin](https://my.pfw.edu/cp/home/displaylogin)). Students will need to have their birth date and last four digits of their Social Security number OR 9-digit Purdue Fort Wayne ID number which is available on the upper right corner of their admission letter. Follow the conventions for selecting a unique password. This activation can be performed either on campus or off. For more detailed instructions on computer and Internet accounts, see the Appendix.

*Note: Teachers should remind students that they need to memorize or write down their username when it is displayed. For security reasons, it is recommended that students never write down their password.*

Student Mastodon (Purdue Fort Wayne ID) Cards

Purdue Fort Wayne’s official photo ID card is the Mastodon Card. All Collegiate Connection students are eligible to receive Mastodon card once their course registration has been processed. Individual students will know their registrations have been processed when they receive a hardcopy confirmation in the U.S. Mail or an email.

To obtain a Mastodon Card, the student must have a government issued photo identification and know their Purdue Fort Wayne student ID number (starts with “900”). Mastodon Cards are issued at the Campus Safety Office in the Walb Student Union. Find additional information about Mastodon Cards here.

Transferability of Credits

Collegiate Connection alumni who are admitted to Purdue Fort Wayne need not worry about transferring credits: all credits earned through Collegiate Connection will be recorded on their transcript. Students should indicate on their undergraduate applications that they have previously completed coursework at Purdue Fort Wayne. Students will not need to request the credit be transferred to Purdue University.

Collegiate Connection alumni who are admitted to another college or university will need to request that their credits be transferred. The decision to accept the transfer credit, and how the credit will be applied by the student’s major, rests entirely with the degree-granting institution. It is the student’s responsibility to verify the credits will transfer and be applicable to the desired major. They should contact either the department academic advisor or the admissions office of the degree-granting institution.
Types of credit recognition: Recognition of credit earned through Purdue Fort Wayne can come in several forms. Credits may:

- Be directly transferred toward a student’s college graduation requirements;
- Exempt students from taking a required course;
- Fulfill some general education requirements, and/or
- Make students eligible for placement into a higher level college course.

Tips for securing credit transfer. Students applying to colleges other than Purdue Fort Wayne are advised to do the following:

- Clearly indicate on the application form that they have taken coursework at Purdue Fort Wayne.
- Submit an official transcript (available from the Purdue Fort Wayne Registrar’s office for a fee) as part of the application.
- Save the course syllabus and written work from Purdue Fort Wayne courses. If a college has questions about the Purdue Fort Wayne course taken through Collegiate Connection, students should present the course syllabus and their written work (completed assignments, exams, etc.) to the pertinent academic department with the request that the work be evaluated on an individual basis.

Collegiate Connection will help students in this process. If transfer of credit is denied simply because the course was taken as part of the Collegiate Connection program, students should contact the Collegiate Connection office at 260.481.5478 or connection@pfw.edu for further assistance.

Transcripts
All transcripts are handled by the University’s Office of the Registrar, not through the Collegiate Connection or Continuing Studies office. All transcripts will be Indiana University transcripts and may be requested in person by the student at the Enrollment Services Information Desk in Kettler Hall, first floor lobby.

An official photo ID is required and there is an $8 fee per hardcopy transcript or $13.00 for an electronic PDF. To request a transcript online, students should go to pfw.edu/connection, click on General Information on the left and then click on Transcripts.

To view specific information and requirements for requesting an official University transcript, students should visit the Registrar’s portion of the Purdue Fort Wayne web site. pfw.edu/offices/registrar/student-services-information/transcripts.html

Approved Purdue Fort Wayne Dual Credit Courses

Collegiate Connection offers carefully-selected courses in various subject areas for concurrent credit. Indiana State Priority Dual Credit Courses are available. Selection of courses at each school, and when they are offered is decided by the high school and is based on their curricular needs. Not all courses are offered at each participating high school. All Purdue Fort Wayne courses offered for concurrent credit are catalogued courses and approved through the regular course approval process of the University. Courses administered through Collegiate Connection are recorded on students’ official academic record. These courses reflect the pedagogical, theoretical, and philosophical orientation of the University.

AD 10101 – Art Appreciation Objectives: to acquaint students with outstanding works of art and to provide an approach to appreciation through knowledge of purposes, techniques, form, and content. No credit toward a fine arts degree. CTL Course*. 3 credits.

AD 10502 – Digital Imaging Digital Imaging. Knowledge in digital imaging software is useful in graphic and web design, image manipulation, photo restoration, digital illustration, and even in creating textures, and lighting maps for 3D modeling and animation. This is a course that introduces basic skills and functions of digital imaging. 3 credits. Priority Dual Credit Course.

AD 10801 – Introduction to Drawing for Non-majors Introduces the student to the basic elements of drawing. Landscapes, line, shape, value, and perspectives will be studied before moving on to the more complex use of color. 3 credits. CTL Course*. 3 credits.

AD 13300 – Metalsmithing Fundamentals for Non-Arts Majors Metalsmithing Fundamentals for Non-majors. Students will learn various basic fabricating techniques using non-ferrous metals (copper, brass, silver) on a small object/jewelry scale. Processes studied will include silver brazing with acetylene gas torches, metal stretching and forming by hand using polished hammers, wax working, and silver lost-wax casting. 3 credits.

AD 16500 – Ceramics for Non-majors Introduction to ceramics is a creative art course in which students use hand building techniques to create tile, pottery form, and ceramic sculpture. Various lowfire surfaces and firing atmospheres will be explored. Slide lectures will accompany projects, exposing students to the work of various cultures and ceramic artists. Classroom projects and discussions will promote a greater understanding of form and creative processes. 3 credits.

AD 20201 – Photography Fundamentals Photography Fundamentals. This course introduces the student to the basic elements and principles of design as they apply to the field of photography and imaging. Through lectures, demonstrations, projects, and exercises, students will develop a body of work that will demonstrate their understanding of the fundamentals of photography. 3 credits. Priority Dual Credit Course.

AD 23900 – Painting for Non-Majors Introduction to painting in oil. Study of the spatial and expressive qualities of color, with an emphasis on composition and pictorial design. Development of technical skills in image making through exploration of traditional and modern methods of paint application. Introduction to surface preparation, framing, and display of paintings. (Will not count toward major in Art and Design.) 3 credits.

BIOL 10000 – Introduction to the Biological World Principles of biological organization from molecules through ecosystems. Emphasis on processes common to all organisms and on concepts related to problems of current importance. No credit towards a degree in IU Allied Health. Credit given for only one of the following: BIOL 1000, BIOL 25000, or BIOL N200. CTL Course*. 3 credits. Priority Dual Credit Course.

BIOL 10001 – Introduction to the Biological World Laboratory Laboratory exercises and experiments that illustrate selected principles of biology. CTL* 1 credit. Priority Dual Credit Course.
BUS 26000 – Personal Finance  Financial problems encountered in managing individual affairs: family budgeting, installment buying, insurance, and home ownership. No credit toward B.S. in business if taken during junior or senior year. CTL* course. 3 credits. Priority Dual Credit Course.

BUS 20102 – Marketing for the Small Business  Overview of marketing management as it applies to the small business. Gain an understanding of traditional and non-traditional marketing techniques. Determine best marketing plan for different types of ventures. This course is required for the Certificate in Small Business Management. No credit toward B.S. in business. 3 credits. Priority Dual Credit Course.

BUS 10001 – Principles of Business Administration  An introduction to functional areas of business, tracing the evolution of business, business forms, the role of government and society, relationships between administrators and employees, ethical issues, and the globalization of world markets. Ideal for pre-business students or students of any major desiring a basic understanding of business. CTL* course. 3 credits. Priority Dual Credit Course.

CHM 11100 – General Chemistry  A basic introduction to the principles of chemistry including: matter and energy, nomenclature, measurement, atomic structure, nuclear chemistry, chemical bonding, stoichiometry, classification of chemical reactions, kinetics, equilibria, gas laws, liquids, and solids. CTL* course. 3 credits. Priority Dual Credit Course.

COM 11400 – Fundamentals of Speech Communication  A study of communication theories as applied to speech; practical communicative experiences ranging from interpersonal communication and small-group process through problem identification and solution in discussion to informative and persuasive speaking in standard speaker-audience situations. Class-size limit of 26 students. CTL Course*. 3 credits. Priority Dual Credit Course.

CS 11200 – Survey of Computer Science  This course is designed to provide a broad and realistic idea of what computer professionals do and how they do it. It will prepare students for later computing courses, including software development courses, by providing both individual and team hands-on lab experiences with web design, markup languages (HTML) and JavaScript. Students will be introduced to various professional opportunities and work environments. Current topics in computer science as they relate to society will be covered. Students will gain sufficient programming experience to enable a smooth transition to CS 160 Java programming. 3 credits. Priority Dual Credit Course.

CS 11400 – Introduction to Visual Basic  This course provides an introduction to programming using the Visual Basic language and its integrated development environment. Topics to be covered include the syntax and structure of the VB language; controls, dialog boxes, and other interface tools; menu design; multiple forms; error-trapping; and arrays. Other topics that may be covered include object linking and embedding (OLE); VB for applications; database development using record sets and data bound controls; data handling; grids; validation and election; drag and drop; and graphics, and new revisions for interoperability with other languages. 3 credits. Priority Dual Credit Course.

CS 16000 – Introduction to Computer Science I  An introduction to computer concepts and the fundamentals of structured programming in a high-level language. Problem-solving techniques, specifications, stepwise refinement, programming style, structure charts, and program documentation. Programming topics include data types, assignments, input/output, subprograms, selection, iteration, arrays, records, text files, and simple searching and sorting. 4 credits. Priority Dual Credit Course.
CS 16100 - Introduction to Computer Science II This course continues CS 16000. Students will design larger programs to solve more complicated problems. The emphasis is on deepening students' abilities to deal with abstraction, problem decomposition, and the interaction between program components. Students will develop their professional practice through analysis of more general problems, debugging and testing of their programs, and written presentation of their solutions. Topics include multidimensional arrays, event-driven programs, GUI’s, class inheritance and interfaces, and libraries. Preparation for Course: P: CS16000; C: MA 17500. 4 credits. Priority Dual Credit Course.

ECON 20000 – Fundamentals of Economics Study of the basic institutions of market economy and the role they play in defining and pursuing economic goals in the U.S. economy. Emphasis is placed upon the effects of existing economic institutions, current economic policy alternatives as they affect both the individual and the society. No credit toward B.S. in business; no credit for both E 20000 and E 20101. CTL* 3 credits. Priority Dual Credit Course.

EDU 20000 – Examining Self as Teacher Designed to help a student make a career decision, better conceptualize the kind of teacher the student wishes to become, and reconcile any preliminary concerns that may be hampering a personal examination of self as teacher. 3 credits. Priority Dual Credit Course.

ENGL 10201 – Modern World Literature Plays, poems, and fiction from the 16th century to the present, including works by Shakespeare, Ibsen, Shaw, Wordsworth, Whitman, Yeats, Dostoevsky, Faulkner, Hemingway. Preparation for course: placement at or above ENGL 13100 (or equivalent) and exemption from or completion of ENGL 15000. CTL Course*. 3 credits.

ENGL 13100 – Reading, Writing, and Inquiry I This course teaches skills of critical reading, thinking, and writing to help students meaningfully engage artifacts, events, and issues in our world. The course builds students’ abilities to read written and cultural texts critically; to analyze those texts in ways that engage both students’ own experiences and the perspectives of others; and to write about those texts for a range of audiences and purposes as a means of participating in broader conversations. Assignments emphasize the analysis and synthesis of sources in making and developing claims. Preparation for course: P: self-placement in ENGL 13100, or completion of ENGL 12900 with a grade of C or better, or completion of the ESL composition sequence and recommendation of the ESL instructor. CTL Course*. 3 credits.

GER 11100 – Elementary German I Introduction to German language as well as to cultures of German-speaking countries. Emphasis on development of communicative competence in speaking, listening, reading, and writing. 4 credits. Priority Dual Credit Course.

HIST 10501 – American History I Colonial period, revolution, Confederation and Constitution, National period to 1877. CTL Course*. 3 credits. Priority Dual Credit Course.

HIST 10601 – American History II 1877 to present. Political history forms framework with economic, social, cultural, and intellectual history interwoven. Introductions to historical literature, source material, and criticism. 10501 is not a prerequisite for 10601. CTL Course*. 3 credits. Priority Dual Credit Course.

MA 14000 – Practical Quantitative Reasoning A course for liberal arts students that shows mathematics as the language of modern problem solving. The course is designed around problems concerning management science, statistics, social choice, size and shape, and computer science. Applications in quality control, consumer affairs, wildlife management, human decision making, architectural design, political practices, urban planning, space exploration, and more may be included in the course. Typically offered Fall Spring. Preparation for Course: P: MA 11100 or 12401 with a grade of C- or better, or placement exam. Notes: MA 14000 is the new course number for MA 16800. Course content and required textbook have not changed. MA 14000 satisfies the General Education Quantitative Reasoning requirement. Students who are not required to take MA 15300 would likely be better off taking MA 14000 or STAT 12500.
MA 15300 – College Algebra Review of algebraic operations, factoring, exponents, radicals and rational exponents, and fractional expressions. Linear and quadratic equations and modeling, problem solving, and inequalities. Graphs of functions and transformations, including polynomial, rational, exponential, and logarithmic functions with applications. Preparation for Course P: MA 11100 or MA 11300 with a grade of B- or better or placement by departmental exam. CTL Course*. 3 credits. Priority Dual Credit Course.

MA 15400 – Algebra and Trigonometry II Trigonometric functions and graphs, vectors, complex numbers, conic sections, matrices, and sequences. Preparation for Course P: MA 14900 or 15300 with a grade of C- or better or placement by departmental exam. CTL Course*. 3 credits. Priority Dual Credit Course.

MA 16500 – Analytic Geometry and Calculus I Introduction to differential and integral calculus of one variable, with applications. Conic sections. Preparation for Course P: MA 15400 or 15900 with a grade of C- or better or placement by departmental exam. CTL Course*. 4 credits. Priority Dual Credit Course.

MA 16600 - Analytic Geometry and Calculus II Continuation of MA 16500. Vectors in two and three dimensions. Techniques of integration, infinite series, polar coordinates, surfaces in three dimensions. Preparation for Course P: MA 16500 with a grade of C- or better. CTL Course*. 4 credits. Priority Dual Credit Course.

MA 21300 – Finite Mathematics I Basic logic, set theory. Elementary probability, Markov chains, vectors, matrices, linear systems, elementary graph theory. Applications to finite models in the managerial, social, and life sciences and computer science. CTL Course*. 3 credits. Priority Dual Credit Course.

MUSC 10900 – Rudiments of Music I Rudiments of Music I. Fundamentals of notation, ear training, music reading. 3 credits.

MUSC 11100 – Class Piano I Preparation of non-keyboard concentrations/majors for the keyboard proficiency examination (X299). Six Sequential components provide sequential presentation of fundamental skills. Three performance examinations evaluate poise, facility, and general musicianship at the keyboard. Preparation for Course C: MUSC 11300; music majors only. 2 credits.

PHIL 11000 – Introduction to Philosophy Introduction to Philosophy. An introduction to basic problems and types of philosophy, with special emphasis on the problem of knowledge and nature of reality. CTL Course*. 3 credits.

PHIL 11100 – Ethics A study of the nature of moral value and obligation. Topics such as the following will be considered: different conceptions of the good life and standards of right conduct; the relation of non-moral and moral goodness; determinism, free will, and the problem of moral responsibility; the political and social dimensions of ethics; the principles and methods of moral judgment. Readings will be drawn from both contemporary and classical sources. CTL Course*. 3 credits.

PHIL 12000 – Critical Thinking This course is designed to introduce students to the structure of successful reasoning. Topics covered will include language, definitions, vagueness and ambiguity, recognizing arguments, distinguishing between arguments and explanations, patterns for diagramming arguments, informal fallacies, non-deductive reasoning (the structure of explanations), and disciplinary reasoning (the structure of arguments as encountered in such disciplines as ethics or business). Students who have earned credit in PHIL 15000 are encouraged not to register for PHIL 12000. 3 credits.

PHYS 22100 – General Physics Electricity, light, and modern physics, for students not specializing in physics. Preparation for Course P: PHYS 22000 with a grade of C or better. CTL Course*. 2 credit hours. PHYS 22000 – General Physics Mechanics, heat, and sound, for students not specializing in physics. Preparation for course P: MA 15300. CTL Course*. 3 credit hours.

SOC 16101 – Principals of Sociology Principles of Sociology. Nature of interpersonal relationships, societies, groups, communities, and institutional areas such as the family, politics, education, the economy, and religion. Includes social process operating within these areas; significance for problems of social change, and social stratification. CTL Course*. 3 credits.

SPAN 20301 – Second-Year Spanish I Second-Year Spanish I. Meets three hours a week. Continuation of 11101-11201/11300 with grammar review and increased emphasis on communication skills. Reading and discussion in Spanish of contemporary literature, essays, and/or cultural readings. Practice in composition. CTL Course*. 3 credits. Priority Dual Credit Course.

SPAN 20401 – Second-Year Spanish II Second-Year Spanish II. Meets three hours a week. Continuation of 11101-11201/11300 with grammar review and increased emphasis on communication skills. Reading and discussion in Spanish of contemporary literature, essays, and/or cultural readings. Practice in composition. 3 credits. CTL Course*. Priority Dual Credit Course.

STAT 12500 – Communicating with Statistics Communicating with Statistics. An introduction to the basic concepts and methods in statistical reasoning that are commonly referenced in the print media. Topics include data collection methods, descriptive statistics, basic techniques of estimation, and theory testing. Students will analyze and interpret statistics relating to contemporary problems in politics, business, science and social issues. 3 credits.

STAT 30100 – Elementary Statistical Methods I Not open to majors in mathematics or engineering. Credit should be allowed in no more than one of STAT 30100 or 51100. Introduction to statistical methods with applications to diverse fields. Emphasis on understanding and interpreting standard techniques. Data analysis for one and several variables, design of samples and experiments, basic probability, sampling distributions, confidence intervals and significance tests for means and proportions, correlation and regression. Software is used throughout. Preparation for Course P: MA 14900 or MA 15300 or MA 16800 with a grade of C or higher. 3 credits.

THTR 20100 – Theatre Appreciation Theatre Appreciation. Understanding and appreciation of the theatre’s role in the modern world. Includes a seminar approach in discussion of the nature of theatre, critical analysis of drama, the actor, the director, design, and careers in the theatre. Also deals with professional, regional, community, and educational theatre. CTL Course*. 3 credits.

*CTL (Course Transfer Library) is the Indiana Commission for Higher Education’s indication that a course has been deemed “transferable” to all public universities in Indiana. Note: Educators interested in information about a course that is not listed contact Continuing Studies.
Purdue Fort Wayne Implements Indiana Priority Dual Credit Tuition Savings

According to The Indiana Commission for Higher Education’s Policy on Dual Credit taken in a high school setting, state funding for dual credit is limited to a set of priority liberal arts courses identified by the Indiana Commission for Higher Education along with all Career and Technical Educational (CTE) courses receiving postsecondary credit identified in the Indiana Department of Education’s approved career pathways. State funding for dual credit is limited to a set of priority liberal arts courses identified by the Commission along with all Career and Technical Educational courses receiving postsecondary credit identified in the Indiana Department of Education. A dual credit course taken in a high school setting refers to courses taken at an Indiana public school.

Under the authority granted to the Indiana Commission for Higher Education, the rate charged to Indiana students for the identified dual credit priority liberal arts courses shall not exceed $25 per credit hour for courses taken beginning July 1, 2011.

Purdue Fort Wayne’s Collegiate Connection courses that are not included in the new state policy will be charged regularly discounted Collegiate Connections rates.

Purdue Fort Wayne Approved Indiana Priority Dual Credit Courses

The Purdue Fort Wayne classes listed below have been identified by the Commission for Higher Education as being a priority dual credit course eligible for the $25 per credit hour rate when taught at the high school.

**Biology**

**BIOL 10000/10001 - Introduction to the Biological World**

**Business**

Instructions for Setting up Purdue Fort Wayne Online Accounts
For Collegiate Connections Students
(Teachers must have Division of Continuing Studies paperwork completed)

Go to pfw.edu. Every student admitted to take credit courses through Purdue Fort Wayne has a computer account generated for them automatically as soon as they are admitted. This account must be activated before use. Student accounts are only available while the student is taking classes. Collegiate Connection students receive their student ID number with their Admissions letter and email from Purdue Fort Wayne.

Select **First Time User?** If you are a first-time user, you will have to activate your account before we can get you started.
If you are a first-time student and have never activated your Purdue Fort Wayne network account, you must do so before you can access myPurdue Fort Wayne. Go to the Account Management Service page to activate your network account.

If you are a new student at Purdue University Fort Wayne (Purdue Fort Wayne), use the Account Management Service (AMS) to create the basic computing accounts you need to send and receive email, store files, create Web pages, and access the Purdue Fort Wayne network. To use AMS, you must: Be a registered student, and know your birth date and either the last 4 digits of your Social Security Number OR your student ID number.

If you do not meet these criteria, you will not be able to use the Account Management Service at this time. You must instead take a photo ID to the Information Technology Services Help Desk.

**Sign On**

**First-time User**

Home ▶ Sign On ▶ First-time User

**First-time User?**

Students—If you are a first-time student and have not activated your network account, you must do so before you can access goPFW. Go to the Account Management Service page to activate your network account.

Faculty and Staff—Use your network account to access goPFW.

**Password tips**

- must be at least 8 but no more than 16 characters
- must contain at least 4 different characters. (For example, you couldn’t use ababab88 because it contains only three different characters: a, b, and 8.)
- must begin with a letter
- must include at least one number
- may include _ (underscore), # (pound or hash), . (period), or $ (dollar sign)
- must not be anything you’ve used within the last calendar year

**Do not use any of the following as part of your password**

- Purdue Fort Wayne
- the word “students”
- special characters such as “?”, “&”, “@”, “/”
- your first name, last name or your full name
- your email address
- your user name
- your Purdue ID

**Password expiration for students is 120 days**
Application For Staff, Staff Child, Staff Spouse or Graduate Aide Fee Remission

General Information

Please refer to Tuition for Employees and Dependents Registered as Students (II.D.3)

General Provisions

◆ Remissions for children or spouse must be on file with Staff Benefits.

◆ Remissions will not cover workshop fees, special fees, laboratory fees, industrial practice fees, or differential fees approved for a course or program of study.

◆ If a staff member’s appointment terminates within six weeks after the start of the semester or prior to July 1 during the summer period and course work is continued, full student fees must be paid for the semester or summer period.

◆ If a staff member is an official retiree of the University the completed application (Form 15) should be sent to Human Resources Services/Staff Benefits in Kettler Hall for verification prior to delivery to the Bursar's Office.

◆ The Staff, Staff Child, or Staff Spouse is subject to classification as a resident or non-resident in accordance with the policy on Residence Classification of Students for Tuition Purposes.

Staff Remit

◆ Part-time Lecturers and Visiting Scholars are not eligible for the staff fee remission.

◆ Remission applies to undergraduate and graduate courses.

◆ Will remit fees up to 7 credit hours during fall/spring semester - 4 in summer. Regular fees will be assessed on each hour over the limit.

Staff Child Remit

◆ Parent or, guardian must be employed in a regular half-time or more benefited position.

◆ Graduate Staff, Part-time Lecturers and Visiting Scholars are not eligible for the staff child fee remission.

◆ Student must be a full or part-time degree seeking undergraduate student.

◆ Student must not have earned a baccalaureate or professional degree from any institution.

◆ Student must be seeking a degree offered by the West Lafayette, Fort Wayne, or Northwest Campuses.

◆ Student must be under 26 years of age to initially obtain the remission.

◆ Students who are enrolled and turn 26 years of age will be eligible for the fee remission as long as they are continuously registered.

Staff Spouse Remit

◆ Employee must be employed on a continuous basis for at least two years before the spouse is eligible for the remission.

◆ Part-time Lecturers and Visiting Scholars are not eligible for the staff spouse fee remission.

◆ Remission applies to undergraduate and graduate courses.

◆ Will remit fees up to 7 credit hours during fall/spring semester - 4 in summer. Regular fees will be assessed on each hour over the limit.

Note:

Please make sure to obtain both the employee's signature and the departmental signature on this application as the fee remission will not be entered without proper certification. Return the completed application form to the Bursar's Office in Kettler Hall.
**Taxable Remission Information:**

Under current Federal laws all or some portion of tuition remission benefits may be subject to income or FICA taxes. It is the policy of Purdue University to comply with Federal and State laws requiring the reporting of such income and withholding of such taxes. The University’s Human Resources Service Center will deduct the required tax withholdings from the employee’s regular paycheck during the semester period. An appropriate information return may be issued to an official retiree or to the Qualifying Surviving Spouse/Dependent of a deceased employee.
