YOU ARE INVITED:

CAREER RESOURCE
LUNCH AND LEARN SERIES

COMPUTER CAREERS: CLARIFYING OPTIONS

School Counselors and Career Educators:

Please join us for the second session in the Lunch and Learn Resource Series offering an opportunity to gather information, ask questions, and network with university faculty and industry guests. This session focuses on the difference between various computer majors and careers. Topics include:

- Clarifying the different computer-related majors: computer science, computer engineering, information technology, and more
- Understanding the related career paths and job outlook in computer fields of study
- Answers to questions students may have about courses in computer-related majors
- Computer Science lab demonstrations: 3D visualization and robotics
- Insight about dual credit and opportunities for students to explore computer interests
- Review of the highlights from the first session

Share your career education questions: what do you want to know and how can we help?
