MEMORANDUM

TO: Fred Kirchhoff, Chair, Senate EPC

FROM: Leni DeFonso, Chair, Calendar Subcommittee

SUBJECT: Summer, 1991, Schedule

DATE: September 19, 1990

It has come to the attention of the Calendar Subcommittee that Summer Session I, 1991, begins immediately after the end of Spring Semester, without the customary break of one week. This situation resulted when the start of Spring Semester was pushed back one week, without consideration of the effect on the summer sessions. This not only deprives students and faculty of a break, but it also presents difficulties regarding contractual obligations of faculty and grade compilation by the Registrar's Office.

The Calendar Subcommittee therefore proposes that the starting date for the summer sessions be set back one week, with Summer Session I to begin on May 20, 1991 instead of May 13, and ending June 28. Summer Session II would begin on July 1 instead of June 24, and end on August 9. Since the Fall, 1991, semester is set to begin on August 26, this schedule would allow for a break of one week between Spring semester and Summer I, and two weeks between the end of Summer II and Fall semester, which is normally the case.
