

Note: You may be prompted during the configuration process to choose whether the new connection is a **Home, Work,** or **Public location.** This setting controls the security for the wireless connection and it is recommended that you select **Public location** for maximum security.

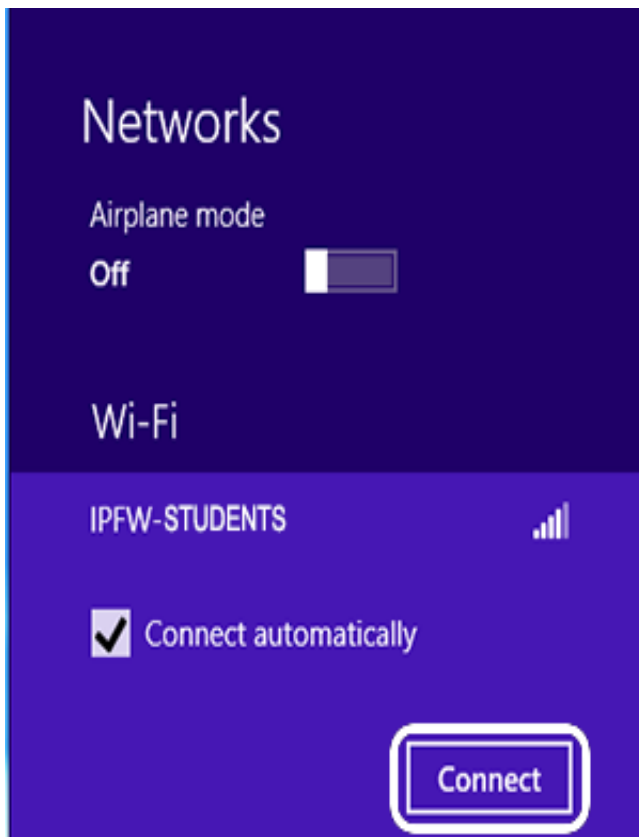

1. While viewing the **Start** panel, press and hold the **Windows** key on the keyboard and press the **D** key to exit the **Start** panel.
2. On the bottom-right corner, locate and click the network icon in the system tray.

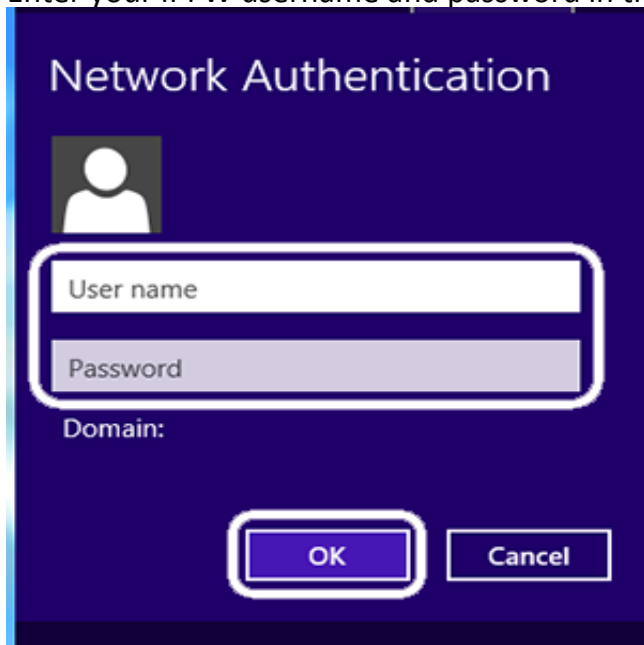

3. From the list
 - a. For Faculty or Staff: Click **IPFW Faculty Staff > Connect.**

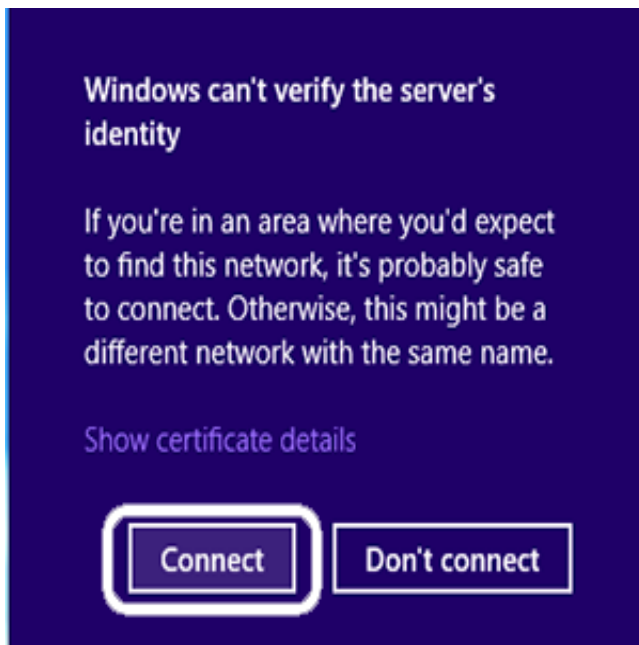

- b. For Students: Click **IPFW Student > Connect.**

4. Make sure **Use my Windows user account** is unchecked.
5. Enter your IPFW username and password in the **User name** and **Password** fields and click **OK**.

- a. **Note:** You may be prompted to verify that you want to connect to **IPFW Faculty Staff** or **IPFW Student**. click **Connect** to confirm.

- b. **Note:** You may be prompted again to enter your login information shown in step 5. If you are, enter your information and click **Connect**.
