For Students: View a Graded Quiz and Review Feedback

Overview
Quiz results and feedback are released by the instructor. Depending on how your instructor has set up the release of scores and feedback, it may be immediate or delayed. Some instructors release scores only after all students have completed the quiz. Other instructors may automatically release your score and possibly quiz questions/answers immediately upon completion. Written Response essay questions will not be graded until the instructor has time to review and manually grade them.
