

# Poll Everywhere For Mac users

---

## Objectives

These instructions are for Mac users. By following them, you will be able to:

- Part 1: download and install the Poll Everywhere plugin for Macs
- Part 2: log in to Poll Everywhere
- Part 3: create new polls/activities
- Part 4: import existing polls/activities into your PowerPoint

## Part 1: Download the Poll Everywhere plugin

- Go to the [Poll Everywhere applications](#) website
- Download the “Poll Everywhere for PowerPoint (Mac)” plugin

- After downloading the plugin, follow the prompts to install the plugin on your computer.

## Part 2: Log in to Poll Everywhere

- Open the Poll Everywhere application
- Type your PFW email (1) and click on “log in with Purdue University Fort Wayne”

A screenshot of the Poll Everywhere login form. The form has a 'Log in' title. Below the title is a text input field labeled 'Email or username' with the value 'grouamba@pfw.edu'. A red circle with the number '1' is next to the input field. Below the input field is a blue button labeled 'Log in with Purdue University Fort Wayne'. A red circle with the number '2' is next to the button. Below the button is a link that says 'Use password instead'.

- Log in to PFW Central Authentication Service (CAS)

- Click on “Confirm” to confirm your email.

- If the connection is successful, you will get a confirmation pop-up box on your screen.

### Part 3: Create new polls

- Open your PowerPoint First.
- Open the Poll Everywhere app on your Mac.
- Click on “Activities”(1), “My activities” (2), and select “New activities”

### Part 4: Import/show existing polls into your PowerPoint

- Open your PowerPoint First. Powerpoint must be running for Poll Everywhere to insert slides into your presentation deck.
- Select the questions/activities you want to add to your PowerPoint (1).
- Click on “Insert Slides” (2)
- The questions will be added to your PowerPoint
