

# Access and Share Zoom Cloud Recordings

---

## Objectives

By following the guide, you will be able to:

Part 1: Find the Zoom Recording in the Cloud

Part 2: Download the Zoom Cloud Recording

Part 3: Share the Zoom Recording Link from Cloud Directly [Limited]

## Overview

When a host records a Zoom meeting, users can choose to “Record on this Computer” or “Record to the Cloud”.

Note the following for the “Record on this Computer” option.

- Local recording is not supported on iOS and Android.
- After the meeting has ended, Zoom will convert the recording to your computer.
- Once the conversion process is complete, the folder containing the recording files will open.
- By default, the recording files are stored in the **Documents>Zoom** folder.
- By default, the video file (MP4) will be named **Zoom\_0.mp4**.

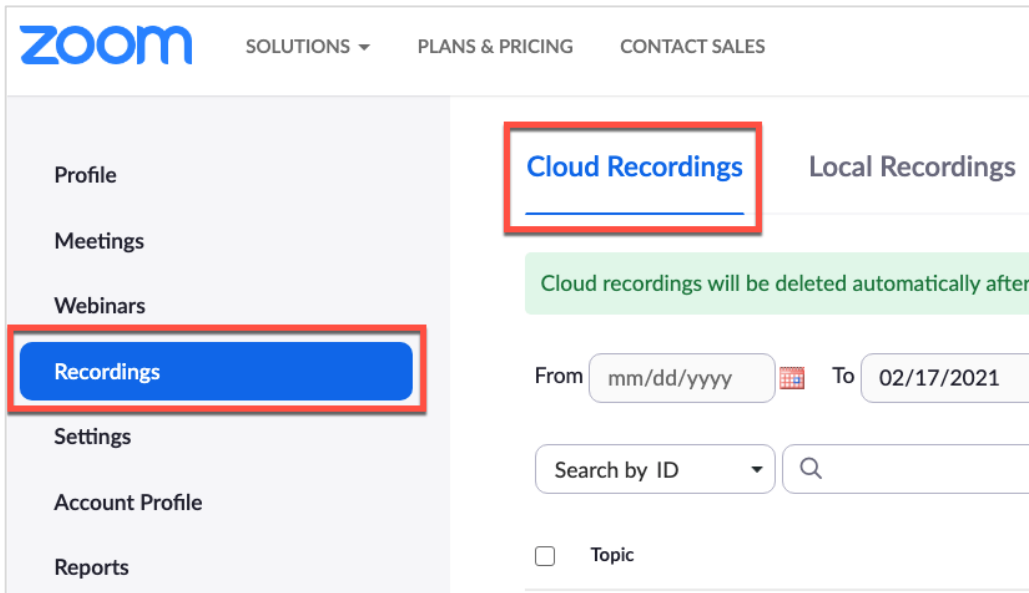

This guide covers how to find a Zoom recording in the cloud.

## Part 1: Find the Zoom Recording in the Cloud

1. Go to <https://zoom.us/>, and click “Sign in” on the top right corner.
2. Sign in with your **pfw.edu** account.

A screenshot of the Zoom Sign In page. The page has a white background. At the top, it says 'Sign In' in bold. Below that, it says 'Use pfw.edu email' in red. There is a text input field for 'Email Address' containing 'jax@pfw.edu', which is highlighted with a red box. Below the email field is a password input field with a 'Forgot password?' link. At the bottom, there is a blue 'Sign In' button. A small note at the bottom left says 'Zoom is protected by reCAPTCHA and the Privacy Policy and Terms of Service apply.'

- Click **“Recordings”** from the left sidebar. By default, users will see the **Cloud Recordings** with the latest on top of the list. [Note, all cloud recordings are only available for 30 days.]

- [Optional] Use the filters to search the meeting recording if needed.
- Click the meeting **Topic** to view the recording.

<input type="checkbox"/> Topic	ID	Start Time
<input type="checkbox"/> <a href="#">EDU 20002-01 Using Cmpters In Educ - Weekly Class Link</a>	92   614	Feb 15, 2021 04:16 PM
<input type="checkbox"/> <a href="#">Katie Jia's Personal Meeting Room</a>	95   68	Feb 15, 2021 11:55 AM

From the Cloud Recordings list, users can see how many files are available. Each recording usually has three files, including:

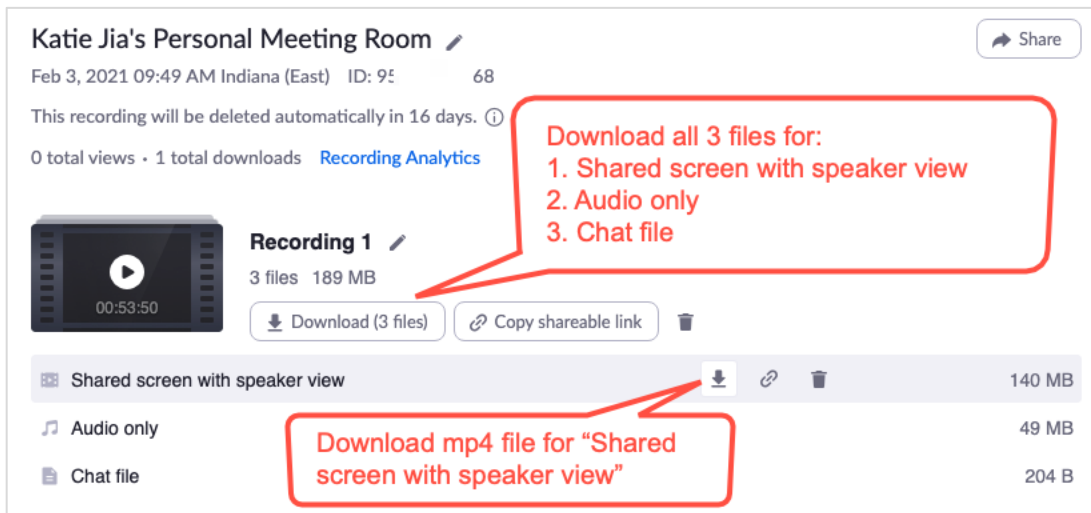

- Shared screen with speaker view
- Audio only
- Chat file [If the chat tool is used]

## Part 2: Download the Zoom Cloud Recording

- Click the meeting **Topic** to view the recording files.

<input type="checkbox"/> Topic	ID	Start Time
<input type="checkbox"/> <a href="#">EDU 20002-01 Using Cmpters In Educ - Weekly Class Link</a>	92   614	Feb 15, 2021 04:16 PM
<input type="checkbox"/> <a href="#">Katie Jia's Personal Meeting Room</a>	95   68	Feb 15, 2021 11:55 AM

2. Hover your mouse over one of the three options (Share screen with speaker view, Audio only, or Chat file), and click the **download button** for that option. [Note: These files can be downloaded as a group or individually.]

3. Find the downloaded recording on your local computer. It is recommended that you rename the downloaded file before uploading to Kaltura.
4. [Optional] To share your recording in Brightspace, please refer to the [Use Kaltura in Brightspace guide](#).

### Part 3: Share the Zoom Recording Link from the Cloud Directly

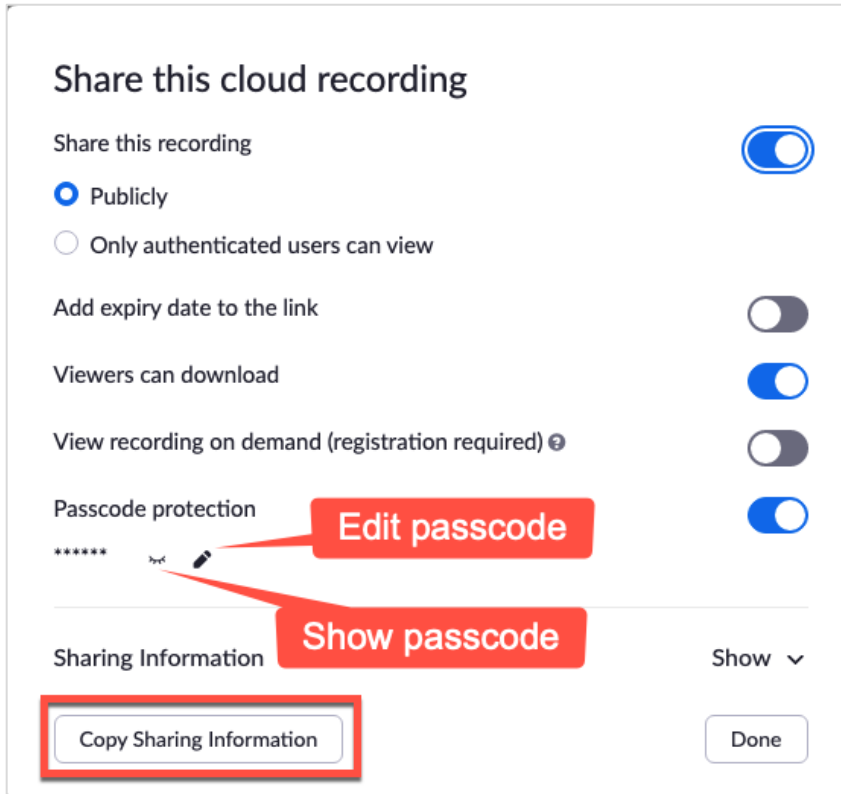

Please note, all recordings will be **automatically deleted 30 days after the meeting**. It is recommended that you download the recording and upload to Kaltura, as illustrated in Part 1 and Part 2.

1. From the Cloud Recordings list, find the correct meeting recording.
2. Click the **"Share"** button on the right side. Please note all cloud recordings are **automatically deleted** after **30** days.

<input type="checkbox"/>	Topic	ID	Start Time	File Size	Auto Delete In	
<input type="checkbox"/>	<a href="#">EDU 20002-01 Using Cmpters In Educ - Weekly Class Link</a>	95 68	Feb 15, 2021 04:16 PM	8 Files (646 MB)	29 days	<input type="button" value="Share..."/> <input type="button" value="More"/>

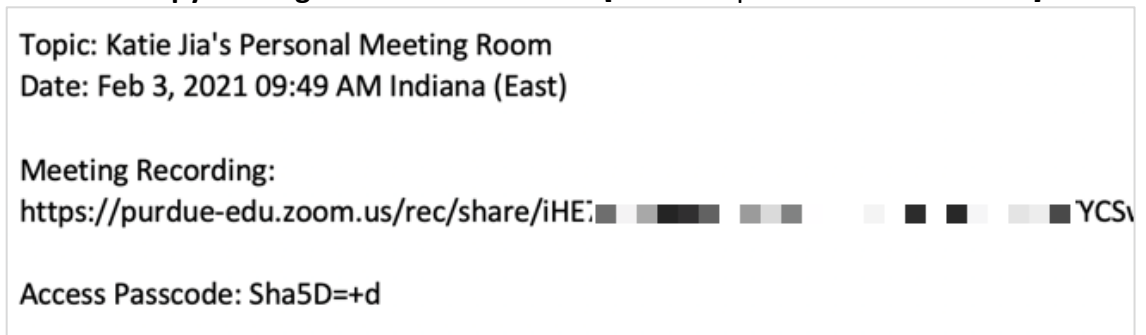

[Continues on the next page.]

3. In the Pop-up window, customize the sharing settings.

Note: By default, the sharing link allows anyone with the link to view and download the recording by using the passcode automatically generated.

4. Click the “**Copy Sharing Information**” button. [See example information below.]

5. Share the copied information with your audience (e.g., email, Brightspace course, or social media).
