

One to One Health

A Virtual Lifestyle Education Program

OVERVIEW

HealthKick is a 6-week virtual education program which addresses physical activity, nutrition, creating healthy habits and decreasing stress. Brief education (about 5-minute video) is delivered to participants via text message or email (depending on preference) Monday through Friday for six weeks. At the end of each week, participants must complete a survey which is sent to a health coach to provide insight to the health journey of each individual.

Health Coaches reach out personally each week (via email or text message) to support and encourage the participant and makes themselves available for in-person or telephonic health coaching as needed. The program has 3 “built-in” one-on-one sessions which are established at the beginning of the program (see timeline below). The goal of this program is to increase education surrounding nutrition and develop healthy habits over 6-weeks to last a lifetime.

TIMELINE

Prior to start: SIGNUP AT purdue.wellright.com ; select **HB Workshops > HealthKick > submit**
Initial one-on-one meeting (telephonic or in person) Optional:
