

COMPRESSED GAS CYLINDER TRAINING CERTIFICATION

In compliance with OSHA 29 CFR 1910.101 regulations, the Compressed Gas Cylinder Safety Training offered through Convergence Training covers the following:

- Basic description of compressed gas cylinders;
- How compressed gas cylinders are used;
- Potential hazards of compressed gas cylinders;
- Best practices for storage, transport and use of compressed gas cylinders.

After reviewing the Convergence Training video provided by PFW REM on "Compressed Gas Cylinder Safety," please complete and return a copy of this form to your supervisor or Designated Trained Individual (DTI).

By signing below you acknowledge that you are aware of the potential hazards associated with, and best practices for storage, transport, installation, and use of compressed gas cylinders, as well as the policies and procedures applicable to the OSHA 29 CFR 1910.101 regulation.
