

Classroom Observation Worksheet

Use the table below to record your observations, interpretations, and evaluations. First, use the descriptive notes you documented during the class observation to fill in the first column of the table. Add additional rows if needed. Next, develop 1-2 interpretations for each observation. Then, use your observations and interpretations to develop an evaluative statement for each row.

Observations	Interpretations	Evaluations
<i>Discrete, observable phenomena and patterns that occur within the class.</i>	<i>Thoughts regarding what an observation might mean.</i>	<i>Judgments about teaching that are drawn from observations and interpretations.</i>
